EVERY RATE INTEREST TABLE.

~~BY~~

HG1628 K293

SAMUEL J. KELSO.

DETROIT. -

MICHIGAN.

An entirely new table, compiled without a single interest computation. Interest for parts of a year (months and days) is found from the annual interest—see examples, page 9. The very trifling labor of computing the *annual* interest, mentally or with the pencil, is more than counterbalanced by the great advantage of having to refer to only *one table* for *any* rate per cent.

1st EDITION.
